

**Greetings to the faculty and administration from the students at Taylor!**

We need your help to complete a survey similar to that which was distributed to the students last week. It contains many actual questions from the student survey. The results of this will be published, objectively, in the Brazilian Manifesto (a student underground paper) the last week of school. This is being sent to all professors and some non-teaching members of the administration. When you are finished with this poll, please fold in thirds, staple with the address on the outer face and drop into campus mail. It would help very much if you return it by Thursday May 7<sup>th</sup>. We hope that you will consent to this small questionnaire, as we would really like to know how *you* feel concerning these matters.

**Thank You, The Brazilian Manifesto.**
